

# SALONI KAHAR

## Full Stack Developer

### Profile

Hi, I'm a 19-year-old Third-year BCA student with a strong interest in full-stack web development. I'm currently focused on improving my coding skills day by day and exploring modern web technologies such as React, Node.js, Express, MongoDB, and more.

My primary goal over the next 2-3 years is to sharpen my development skills, stay updated with the latest technologies, and build real-world projects that solve meaningful problems. I'm committed to continuous learning and adapting to the fast-evolving tech landscape to become a capable and confident full-stack developer.
